Ms. WEBSTER'S HEALTH .-- An erroneous report has been in circulation to the effect that the Hon. Daniel Webster was lying dangerously ill at Frankfort, N. H. He has been unwell, but not in danger, and is now better. His son, Fletcher Webster, esq., is said to be dangerously

CUBA AND THE CUBANS !- The present or recent Cuban excitement has produced at least one good result, in correcting our knowledge of the condition and disposition of the people of that island. We were under the impression that they were oppressed; but many of our brother editors in this country have ascertained that this is all a fiction. We were under the impression that they were dissatisfied; but it has been ascertained that this too is all a fabrication. Indeed we are daily admonished by these editors that no people can be found more loyal, nor more thoroughly attached to their government and its institutions. It is pleasant to be set right on important points like these, and to be assured that our future conduct is to be guided by infallible certainties; yet we must be permitted to express our wonder at the fact that the Spanish government should have fallen into the same errors by which we have been blinded. That government confides none of the civil offices of the island to native Cubans, but places over them as worthy of their respect, confidence honor, and fees, a horde of Spanish dignitaries it vouchsafes to them also a very numerous and inquisitive priesthood from the same country; and it places over them, too-of course for their protection !- a standing army of twenty thousand soldiers! All these are maintained by the Cubans, who send to Spain a very handne annual revenue besides—how willingly we

To argue from all this, firstly, that the Cubans have cause to desire emancipation, and secondly, that Spain is conscious of the fact, was of course a hasty and rash process with us of which our brother editors are now most benignantly convincing us; and from them we receive so agreeable and cheering a portraiture of Cuba and the Cubans, that we could really find it in our hearts to wish them transported thither to participate in the enjoyment of so pleasant a state of affairs, knowing as we do that if any little privation they might there encounter should prove in the least annoying, their dog-like servility to her Catholic Majesty and her myrmidons would sweeten the cup of their sorrows, and render easy the yoke of their well-deserved bondage.

Policy of the Postmaster General.

Up to yesterday, sealed proposals were to be received at the Post Office Department "for furnishing paper for, and printing, binding, and enveloping in printed envelopes, 25,000 copies of the laws and regulations for the government of the Post Office Department, with postage tables and such other matters as the Postmaster General shall direct, accord-'ing to the copy to be furnished by this Department. The book will contain say 300 pages octavo." The advertisement further states that "the

work will not be required to be performed in Washington city, but bids will be received from places which can be reached in fortyeight hours by the due course of the mail. provided that the publication, when completed, be delivered at the Post Office Department in Washington within the time limited, ' free of charge."

Under many administrations of the United States Government, a fostering care was exall its departments for this city, and a desire was ever evinced to promote its growth and prosperity. That this should be done to the disadvantage of the Government, is not and has not been claimed by any one; but that it would prove a disadvantage to the Government to engender a large and business-like commupity here, is not at least very generally be-

The moment a man in any branch of business takes up his abode here-whether he be the architect of the Capitol, the stone-mason, excavator, painter, or whatever he may be-he is kindly regarded and made welcome by our people; and so little of clanishness or selfishness prevails here, that a year ago a gentleman was elected by our citizens to the City Councils who had but just completed his first year's residence among us. But when we witness the adoption of a policy the intent of which is to save a few cents on each page of a book, by disregarding the implied pledge to sustain the printing offices established here for the convenience of the Government, we are warranted in pronouncing it a degree of penuriousness that will not be approved by the American people or their

representatives.

That this volume may somewhere in the United States be got up at a less price than in this city is possible; and when we state that tens of thousands of dollars' worth of printing materials, and hundreds of the most skilful and intelligent printers, are here always prepared to serve the Government, and are obliged to perform excessive duty for a part of the year, even at times at a sacrifice, it will not be questioned that during that portion of the year in which they are idle some degree of partiality should be shown in the bestowment of a contract so entirely at the option of the Depart-

ROBERT HARRIS, esq., of Harrisburg, died on Thursday, September 4th, aged eighty-two. He was a gentleman universally esteemed and beloved, and filled many offices of trust, including that of Representative in Congress. Within the past year he visited Washington city, and was presented to President Fillmore, and was thus enabled to say that he had been introduced to every President of the United States, from Washington down.

APPLICTIONS IN MR. CRITTENDEN'S FAMILY .-It is but a few months since the decease of the venerable mother of the Hon. John J. Crittenden was announced. On the 16th of August, his nephew suffered death at Havana; and we now hear of the decease of his wife at Frankfort, Kentucky, on the 8th inst.

STAY AT HOME.—The greatest folly any one can be guilty of, is to go or send to other cities this fall for dry-goods, groceries, clothing, hats, boots, shoes, furniture, stoves, or any other article ever needed by a housekeeper. Our merchants and men of business are doing nobly in the way of supplying themselves, and already their stores will bear testimony to this. To be sure, it is a convenient thing to look over the newspapers of another city, and select the articles needed, and so order them without further trouble; but some of our own citizens have promised to adopt the advertising system this fall, and in them the public will find fair dealng and obliging men.

Public Schools of Washington .- There was meeting of the Board of Trustees yesterday evening, at which were present the Mayor Messrs. Harbaugh, Haliday, Byington, Pearson, Randolph, Walsh, Abbott, McKim, Farnham, and Donoho.

Mrs. Eliza Clarke was elected Principal of Primary School No. 2, vice Miss Bradley, resigned. Miss Wilbar resigned the principalship of Primary School No. 4, first district, and Miss Nevins, now teacher of Primary School No. 2, first district, was promoted to that place.

Elections to fill vacancies in Primary School No. 2, third district; Assistant in the second district school, and in Primary No. 2, first district, were postponed until fafter due examina tion of candidates for those places could be had Male and female candidates for these vacancies are to present themselves this afternoon a o'clock, in the Aldermen's chamber in the

City Hall, to be examined by the committee. The Board will meet again on Wednesday next. AN ORGAN WANTED .- The Union speaks of the National Intelligencer and the Republic as the organs of the Administration. The Republic of this morning denies that it is "an organ of anybody," and the Intelligencer, we are sure,

does not merit the title. It is a queer case

Either the Republic is deceived in its own char-

octer, or all the rest of the world is. Nor GOING TO BOSTON .- The Republic regret o learn that "the President has been compelled e decline the invitation of the citizens of Bos ton to attend the celebration of the 17th inst. The state of the public business renders it an imperative duty to deprive himself of the pleasure which he would derive from participating in the ceremonies of that most interesting occasion."

MR. WEBSTER .- The Boston Bee has authority to say, that this gentleman will be obliged t decline attending the "great celebration."

CENTRE MARKET .- It was fairly attended this morning by both buyers and sellers. Among the former were some of the prettiest faces that ever looked forth from under well-starched sun bonnets. Little baskets, and well-filled purses and cheerful salesmen made the scene quite agreeable. The best cuts of beef sold at 10 cents per pound; veal, 121c.; lamb, 8c.; full grown chickens, per pair, 62c.; eggs, per doz., 16c.; butter, per lb., 16 to 31c.; sweet potatoes. per peck, 25c.; Irish potatoes, per peck, 25c. tomatoes, per peck, 16c.; Lima beans, per quart, 8c.; ochras, per peck, 50c.; cucumbers, per hundred, 25c.; corn, per dozen, 12c.; egg plants, 4c. up; peaches, per peck, 12} to 87c.; apples, per peck, 121 to 25c.; cantelopes, 2c. up; quinces, per peck, 25c.; pears, per peck,

WHY THE "PERSEE" RELL DIDN'T STRIKE NINE !- A little "muss" took place at the Perseverance Fire-engine house last evening. On the occasion of a false alarm, about eight

o'clock, a young man, formerly, but not now, a member of the company, was very noisy; and when officer Martin remonstrated with him, he replied with insulting and profane language. whereupon Mr. Martin put him in the watchhouse. When the hour of nine arrived, Capt. to take hold of the rope, which had been drawn to take hold of the rope, which had been drawn up, in retaliation, by persons having control of the engine-house, and who refused to surrender the keys of the upper room. The Mayor, Mr. Lenox, and the president of the company, Mr. G. S. Gideon, were forthwith summoned, and the latter demanded the keys of the house, which were still refused. Upon the command of the Mayor, the doors were then broken open, and the premises taken possession of by the police. It is proper here to add, that a number police. It is proper here to add, that a number of the members of the company who were pre sent protested against the conduct of the insubordinates on this occasion.

Ho. FOR BOSTON !- Round-trip tickets are now being sold from Baltimore to Boston at fourteen dollars, good from the 8th inst. to the 27th inst. Many of the citizens of Washington, Baltimore, and other places, are taking the opportunity of visiting Boston, attending the railroad and steamship jubilee, &c., &c. But we cannot go !

FUNERAL OF JUDGE WOODBURY .- The funeral services over the remains of the late Hon. Levi Woodbury, it is said, took place on Sunday at Portsmouth, N. H., and was the occasion of great interest. Large numbers of people attended from the surrounding county, and many were present from Boston. The solemn funeral rites of the Episcopal church were performed, after which the body was deposited in a receiving tomb to await such disposition as may be determined upon by the family. Among the pall-bearers were Commodore Storer, of the Navy, General Cushing, of Newburyport, Professor Parker, of Cambridge, Hon. Richard Jenness, and Col. Dimick, of Fort Constitution.

SEIZURE OF AN AMERICAN VESSEL .- A depatch states that an American brig, belonging to Portland, (Me.) has been seized by the Spanish authorities of Cuba for an attempt to smuggle gunpowder into the port of Havana; and that the captain and mate, who were in prison, were likely to pay dearly for their share in the speculation.

RETURNED HOME-Our fellow-citizen CHAS. E. SHERMAN, esq., who has been for a couple of months on a visit to some of the Southern

Mosquiro Nerring .- Mr. T. B. Brown, on the Avenue, opposite Brown's Hotel, has for sale a lot of this most desirable article.

THE CAMPBELL MINSTERLS serenaded the President of the United States last night, performing some of their most beautiful vocal pieces. The Plank Road.

To the Editors of the American Telegraph.

GENTLEMEN: Let me call your attention to the following remarks in the Baltimore Sun, on the subject of the improvements now deemed necessary to be made on 7th street. Mercury says, in his letter of the 9th instant :

"Our expectations are fixed on the plank road to Rockville; but, are our corporate authorities preparing the way? Seventh street, between O and P, is neither cut down nor graded. If we want espitalists to subscribe quickly, we should be doing something ourselves. Jupiter told the wagoner to put his own shoul ders to the wheel, and then ask for assistance."

The above remarks are just and proper What appears to be the duty of the corporate authorities, in reference to Seventh street, has so far been entirely overlooked, and appropriations made for streets that are comparatively not needed for the necessary convenience of the citizens of Washington, or our country friends in particular. Two-thirds of the Montgomery trade find its way to market by Seventh street and the immense settlements, and handsome improvements all along the turnpike thence. warrant a heavy appropriation, so as to have Seventh street fully improved, and prepared to be in good order to the boundary of the city for the plank road now in the course of commencement. The street should be cut dow and graded at once, so that this beautiful street, as well as the most business street, will command the admiration of the whole community. The Mayor should send a special message to th Councils to hasten this important matter, and they will do well, and receive the thanks of the whole community, if the subject is passed upon favorably at an early day.

On Tuesday night Capt. MARSOLETTI's band serenaded our fellow-citizen, Capt. John Y BRYANT. They were accompanied by a goodly company of the friends of that gentleman, who

embraced the opportunity to greet him with a Welcome home!

[Communicated.] THE MOSQUITO PEST-A REMEDY .- This ob noxious little insect has visited our city in unparalleled numbers the present season, and makes night hideous with its annoying music and tormenting bite; visiting alike the couch of the wealthy and the pallet of labor, driving from each "nature's sweet restorer, balmy sleep." The following has been tried, and is said to be a sovereign shield against their visits. Take equal parts of sweet oil and spirits of turpentine, mix well, and, on going to bed, touch lightly therewith different parts of the body, face, arms, legs, &c. So long as the odor of the turpentine remains, it is said no mosquito will come near. In this time of general tribu-lation, this is surely worth a trial.

THE CUBAN PRISONERS. - The New York Herald of vesterday morning says:

"Our Washington correspondent informs us that the Government have taken measures to reclaim the American prisoners captured in Cuba. We are not advised on what ground the reclamation is to be asked; but we sincerely hope that these unfortunate and much deceived young men will, one all, be restored to liberty. every ten of them embarked in Loper's expedi-tion from the noblest impulses, and it would be a pity to sacrifice them or immure them in dun-

JUDGE OF THE U. S. SUPREME COURT .- In JUDGE OF THE U. S. SUPREME COURT.—In consequence of the death of Judge Woodbury, there is a vacancy on the bench of the Supreme Court, to be filled by President Fillmore, by and with the advice and consent of the Senate. The Associate Justice to be appointed for this vacancy will of course be a Whig, but we have not as yet heard any one named as the most likely to receive the honor. Judge Woodbury was one of the two Judges appointed by President Polk; the other was Judge Grier.

As the appointment belongs to a New England man, we have thought it probable that the President might offer it to Hon. Robert C.

President might offer it to Hon. Robert C. Winthrop, the late Speaker of the House of Representatives, or, if declined by him, to Hon. Rufus Choate, or Hon. George Ashmun; all these three being eminent lawyers of Massa-

PROPOSED LINE OF STEAMERS BETWEEN QUE BEC AND EUROPE. - The Quebec Board of Trade at a late meeting, adopted a series of resolu-tions, setting forth the advantages of a line of steamers direct between Quebec and Europe, which they state would greatly benefit one of the most fertile regions on this continent, and furnish the needed facilities for a vast immigration to that region. A memorial to the Governor and Council, based upon the resolution, asks £10,000 from the government in aid

AMERICANS IN ENGLAND .- Upwards of two thousand Americans have registered their names at the Crystal Palace, and multitudes besides omitted to enter theirs. The American delegates in the Peace Congress exceeded sixty. many of whom crossed the Atlantic on purpose, and some traveled a thousand miles to reach the ocean. The Germans were thirty-eight.

THE CANADA CONVENTION .- The colored per ple are industriously preparing to attend their first general convention in North America, to be held in Toronto on the 11th, 12th, and 13th of September. The colonization of the black race either to Jamaica or Liberia is to be one of the principal subjects for deliberation.

YACHTING IN ENGLAND,-The surprise which the performances of the yacht America has oc-casioned in England, has induced several yacht builders there to offer to construct vessels to run against her. A celebrated builder has offered to build, in three weeks, a yacht that will sail against the America for £500.

THE ILLNESS OF J. FENIMORE COOPER. - A correspondent of the Buffalo Courier states that a new course of treatment has been adopted by the medical attendants of Mr. Cooper, and that although somewhat weaker than before, several of his symptoms are more favorable.

A FACT .- The Bunker Hill Aurora says that "there are indications of an awakening of the Whig party of Massachusetts at this time which are quite encouraging, and we hope will prove an earnest of favorable results in the fall elecan earnest of favorable results in the fall elec-tions." Locofocos begin to tremble, and Free-soilers have already made up their minds that they are nowhere and nothing. Gen. Wilson's claim for 12,000 majority for coalition is justly regarded as an amusing joke. Let the Whigs do their whole duty and the State will be hand-somely redeemed.
